

Mobile App FlexNote in use

Motivation

- Easy provision of information even to unknown, but relevant persons
- More self-determination in the processing of tasks
- Clear representation to reduce misunderstandings in communication

Change in work

- Short information paths - comments become traceable and offer direct contact persons
- Indirect assignment of tasks - sender provides the information; receiver can complete the task according to his own time and expertise
- Content is searchable for similar occurrences

Added value & benefits

- Transparent information flows enable an improved exchange of knowledge
- Follow-up processes can be started automatically
- Evaluation of the data by different experts possible
- Reporting person does not need to know responsible persons to send information
