

## Description

- Companies or employees organize their flexible work assignments via social media and mobile devices
- Planners create assignment requests in their master cockpit as needed and send them to employees
- Employees decide cooperatively and in mutual agreement about taking over the work assignments
- Feedback via app is possible quickly, so shifts can be filled reliably and fairly

## Work Change

- Digital and mobile way of organizing work
- Employees decide cooperatively on work assignments via smartphones
- Foremen use intelligent assistants for deployment planning

## Contact
